12 NOV 1991

MEMORANDUM FOR DIRECTOR, DEFENSE INFORMATION SYSTEMS AGENCY

SUBJECT: Chartering of the Technical Integration Management Function

In order to meet the objectives of technical integration for the Department I am chartering the establishment and operation of the Technical Integration Management function within the Center for Information Management. The technical integration managers will use the generic technical and data architecture products developed by the Center, to perform technical integration in specific functional areas and across functional areas. The organization will establish and manage configuration control for the technical architecture and interfaces between systems and ensure coordination of technical integration actions and plans with inter-function and intra-Service/Agency technical integration programs.

Supporting details for this charter can be found in the ITPB approved item 91-23.

A handwritten signature in cursive script, reading "Paul Strassmann", is positioned above the printed name.

Paul Strassmann
Director, Defense Information
